# Bio-s

A metallic architectural structure, painted in the elegant bronze or lead shades, encloses the blown glass of the lampshade in all its finesse: contrasting elements that encounter one another in the Bio-s collection of lamps, designed by Studio Team Design, in an expression of three-

dimensionality and perspective. The design of this lamp does not go unnoticed, strengthened by its suggestive capacity accentuated by the lampshade, in transparent glass, but especially in the smoked mirrored version, able to reflect the environment in which the lamp is placed.
